The stock market to-day gave renewed evidence of a general disposition
among important financial interests to
restrict confident operations until developments in the war situation, more stability to the grain market and a clearer
perception to the future of the money
market materialize. The announcement of the Baltimore & Ohio reorganization plan, which involves the distributton of new securities in excess of
\$200,000,000 and the formation of an underwriting syndicate to provide \$20,000,000 cash to carry out the immediate provisions of the plan, augurs well for the
confidence of its projectors in the immediate tendency of the money market.
Preparations looking to the disbursement of enormous sums in connection ment of enormous sums in connection with the July dividend and interest payments are now being made, but these extensive drafts have been partly sails-fied without any disturbance to favorned without any disturbance to favorable rates. The general tenger of speculation to-day was hesitating during the greater part of the forenoon owing to the vigorous efforts of the bears to precipitate weakness in the general market by concentrating their efforts against the high-priced specialities, with a view of dislodging long stocks. These efforts were rewarded by substantial deforts were rewarded by substantial deefforts were rewarded by substantial de-clines in Sugar, People's Gas and Metro-polition Street Rallway. The granger group yielded sympathetically with the break in wheat but the remainder of the list was well supported and losses were small.

small.

The feverishness of the leaders dominated the speculation to a more or less extent, a disposition on the part of the London operators to absorb a sprink-ling of the international favorities, coupled with manifest support to the standard shares at succeeding levels, served to check the reactionary tendency and values proved slowly upward with the ultimate results of the operations showing slight fractional changes favoring either side.

Brendstiffs and Provisions.
CHICAGO—Confirmation of the reported settlement of the cash wheat pool caused a sharp raily near the finish in the whent pit to-day. July' closed with an advance of 2½@2½c and September 1½@1½c. Corn left off ½c lower and outs lost ¼c. In provisions pork lost 15c, lard 5c and ribs 7½c.
There were several causes which combined to give wheat strength at the start, the cables were decidedly stronger. Liverpool prices ranging from 1½d to 3½d per bushel higher, with the continental markets also doing better. An-

er, Liverpool prices ranging to 3½d per bushel higher, with the continental markets also doing better. Another reason for strength was found in the bad news from France, where the crop was said to have been seriously hurt by rust. According to authentic reports, the yield there will be 10 to 20 per cent less than anticipated. Advices were also received from many sections in Missouri, Kansas and Texas, where the

were also received from many sections in Missouri, Kaness and Texas, where the gradn is ripe, reporting serious loss from rains, and these too, had a good influence early in the day. Shorts covered freely and there was some general buying for the long account under which prices advanced sharply.

The heavy profit taking and short selling which followed this led to a sharp reaction and September, which started at 5Myc to 683%, fell off to 6614663%, and July, which sold at the start at 734%, declined to 71½c. December lost 1½c. In the last half of the seesion the market turned exceedingly strong on the confirmation of the report that the dad to pool the Peavey and Pillbury wheat along with the Leiter holdings and to have Armour handle it all, had been consummated. Together with this came still further claims of crop damage from St. Louis. This buillish news brought the shorts out in force and the decline was more than recovered.

The receipts were small and exports heavy. Chicago got eixteen cars; Minneapolis and Duluth 62 cars against 33 a year ago. The Atlantic port clearness of wheat and flour were equal to 580,000 bushels. The advance in Paris amounted to 4½c a bushel in June wheat and 3½c for September-January, Liverpool closed at the following net gains: July 2½d; September 14d and December and July wheat in Chicago opened 161½c, higher at 73673½c, declined to 74½c/fifty at the close. September wheat started %c up at 68½6968%c, sold down to 66½6%c, firmed up to 69½c, then declined to 69c bid, the closing figure.

then decimes to be use.

After a strong opening in corn the market became guite weak, due to profit taking. Later the loss was barely recovered on the final rally in wheat. July opened %e higher at 32%@32%c, defined to 32%c; rose to 32%c bid, the steams price.

July opened ½c higher at 32%,623%c, defellined to 32½c; rose to 32½c-bid, the closing price.

Outs followed corn. July began unchanged at 2½c, fell off to 23½c, then firmed up to 2½c at the close.

The appearance of two new cases of yellow fever in Mississippi together with the break in corn depressed provisions. July pork opened 10c lower at 39 70, advanced to \$9 77½, then declined to \$9 65, the closing figure. July lard started 2½c down at \$5 77½, sold up to \$6 80, then weakened to \$7 75 at the close.

July ribs began 2½c off at \$5 52½ and sold off to \$5 47½, the resting place.
